### Logo components

Alliance's graphic standards help maintain the integrity of our visual representation.

These are the components of Alliance's logo.

The Alliance mark is never used alone. It is only used with The Alliance logo type or tag line.

### Logo treatment

The top two are preferred treatments with the third to be used when the space is limited and the secondary type would not be legible. Any other arrangement or orientation of the graphic elements is a misuse that will weaken The Alliance brand.
